```
1 import 'dart:io';
2 void main()
3 { //Assignment of the day-4
4     stdout.write("Enter the principal: ");
5     double? principal = double.parse(stdin.readLineSync()!);
6     stdout.write("Enter the rate: ");
7     double? rate = double.parse(stdin.readLineSync()!);
8     stdout.write("Enter the time: ");
9     double? time = double.parse(stdin.readLineSync()!);
10    double simpleinterest = (principal*rate*time)/100;
11    stdout.write("The simple interest of the following details is: $simpleinterest");
12 }
13
```

Run: SimpleInterest.dart

C:/dart-sdk/bin/dart.exe --enable-asserts "E:\Shifted Study Folders\Flutter Development JoVAC Course\SimpleInterest.dart"

Enter the principal: 5000

Enter the rate: 4.5

Enter the time: 3

The simple interest of the following details is: 675.0
